POSITION

Ph.D. candidate
Computer Vision Lab.
Pohang University of Science & Technology (POSTECH)

RESEARCH INTERESTS

My research focuses on computer vision and deep learning, including but not limited to **human behavior understanding**, **scene understanding**, domain adaptation, computational imaging, and its applications. I am particularly interested in **Human-Object Interaction (HOI) Detection**, which goes beyond traditional object detection by not only localizing humans and objects but also recognizing their interactions.
